development has been the confidence future and the aplendid service its unusually fine stores offer the public.

Mexico is logically a trading center for an exceptionally wealthy section. Its growth has been due in no small part, to a belief in its future greatness held by all who reside here and the high class stocks and modern merchandising facilities offered the buying public.

What our city is we help to make and it will be no greater or better than the effort we expend in its behalf.

WILSON AND THE LEAGUE. WHAT President Wilson has ne complished in his tour of the country

in behalf of the League of Nations has more many granifying to the public in general who favor the League. His same, constructive handling of the subject has placed it before the

public in a light that makes each issue clear. No palavering politician could have accomplished this in a generation of oratorical hysteria. The senagambian in the woodpile of

the opposition will shortly make his identity known. In the meantime the clear thinkers and those who are darected by patriotic rather and political incentive will help the Senate adopt || | the League.

One satisfaction that has developed from the opposition has been the uncovering of some demagogues whose position was understood by many but not appreciated by the people in general. nI the future no disguise they assume will be sufficient to further drop the wool over the eyes of the unsuspecting.
